Dear Sir:

Attached are Certificates of Service on [] and [] which, if acceptable, need your signature.

Also attached is the total documentation sent us by TRW in support of a \$115.20 claim under Contract A-104 for a trip by []. There is some question as to whether this trip is properly chargeable to this contract since there is no Certificate of Service for [] time, and too, the payment of subsistence is not listed as allowable per the terms of A-104. Could this, instead, have covered field engineering tests applicable to your portion of A-102?

In either case, Sir, we cannot make payment until we have your approval of said trip and an explanation as to purpose and destination. If A-104 is the correct contract, this approval should be on a Certificate of Service, so TRW could bill us for the time involved and actual travel costs rather than for lodging, food, etc.. For A-102, the requirement would be an approving letter.

Very truly yours,

Doug
